Description

Our Non Profit client loved this award. This custom Lucite award was developed for a housing organization that through private donations, builds housing for needing families. The slanted top mimics the slope of a

roof and the sturdy structure of the Lucite represents sturdiness. This award reminds recipient of their successful accomplishments and commitment to helping families in need. Take a look at the video. You can see multiple layers within the award. From the front, the white acrylic background offsets the logo and information. Each layer is crafted individually and you have complete customization of each layer.
