Description

We were proud when a Air Force general commissioned this display to show off their commands legacy and commitment. This custom military heraldic award included multiple pieces, mirrors, LED lights, shields and a

real dagger.

Each Lucite piece was crafted separately and came together to convey a special message and feeling. The base is approximately 14 wide and 1.5 thick. It has the continents embedded just under the surface.

Everyone was impressed by the craftsmanship of this award. It is displayed in their council room and taken to significant meetings. We built a custom carrying case that could transport this piece to other locations where generals and their staff would set up commands.
